

Thank you for your interest in creating Meaningful Christmas cards with your children this year!

I've had many people write me for the actual cards. Unfortunately the original cards I made with the cute little poems on them we lost on an old computer.

However, I have created this printable for you instead. This document contains blank cards with numbers on them so you can make your own cards. It also has unnumbered cards with activities printed on them!

Simply print these cards on a sturdy cardstock, hole-punch, and add ribbon!

It's my hope that this printable brings you, your children, and your community much joy this Christmas season.

In love and kindness,

Jennifer
